PHOTOGRAPHY DIRECTION

AUTHENTIC | CREATIVE | HANDS-ON | WARM | REFINED | DYNAMIC | HUMAN

Capture real moments of people bringing events to life. Prioritise close-up, candid shots of hands planning, building, styling and coordinating. Focus on specific actions such as reviewing floor plans, adjusting sound equipment, preparing event materials and perfecting final details. Represent a variety of events, including conferences, activations, festivals, weddings and award shows.

Use natural or warm ambient lighting, realistic skin tones, soft shadows and shallow depth of field. Keep compositions clean, with one clear focal point and subtle use of SHOWSET's brand colours. Apply consistent, warm colour grading without losing natural textures or detail. Avoid posed interactions, excessive retouching, artificial lighting effects and repetitive compositions. Show genuine activity, authentic environments and the small imperfections that make photography feel human.

The images featured in this guide are AI-generated examples used solely to demonstrate the intended photographic style, composition and creative direction. Future brand photography should use authentic images captured at real events.

ICON USAGE.

Use clean, outlined icons with consistent stroke weights, smooth curves and balanced proportions. Maintain uniform sizing, spacing and alignment across all applications. Use off-white on navy as the primary treatment, with teal reserved for subtle highlights. Avoid mixing icon styles, adding unnecessary detail or using excessive colours.
